In a flash the package disappeared— ist vanished. In the days immediately just vanished. In the days immediately following, frantic search was made for it. No trace. Washington raised an awful row and sent secret service men on to investigate. Charles gave emphatic statement that he had receipted for Mr. Comstock's registered package, and that further than that he could say nothing because he knew nothing. Persons wont to leap to conclusions elevated their customary eyebrows.

Charles was miserable but dumb.

"Like the Una of the poet's ideal," said Charles Lambert, octogenarian telegraph editor of the Péoria Star, who roughed out the story to me a few days ago, "his virgin innocence was his sole defense."

Whether the citizen then postmaster of Peoria had to make good the loss I could not verify. Charles went his way to China as a missionary. In the matter of the episode of the lost money, the eyes of some persons remained elevated.

That was in 1879. Missing Money Is Found.

Two and forty years pass.

Four years ago—about—an old U. S. postoffice mail pouch of leather and steel was sent to San Francisco, where such work is done, to be repaired. It had many times traveled the breadth of this continent. Maybe it was to be discarded—my informant was not

Anyway, the pouch was examined. In the bottom of it a letter had asserted itself under the metal fixings which reinforced the pouch. It was, to any save examining eyes, idden.

It was the lost Peoria registered pened!

All the Peoria papers handsomely printed vivid stories of the discovery.

And that, as the sacred books of the east imply, is that,

Beginning Friday, Oct. I, it will be served by high-speed electric transportation over the Garfield Park line of the Chicago Rapid Transit Company. The Extension Tracks are laid. The Terminal Station at Roosevelt Road is completed. Service will be efficient and on regular schedule from the moment the first train arrives and starts. Westchester is the first real suburban development the West Side, with half the population of Chicago, has known. It is intersected by two of Chicago's noted through routes—Roosevelt Road and Twenty-Second Street. It is fittingly termed America's first model suburb because Westchester is a "made to order" community carefully planned by eminent engineers and architects. It will be built to an ideal that includes every conceivable convenience and comfort to promote happy home life.

Here are some further facts for thoughtful consideration:
Nowhere on the west fringe of prosperous Chicago will there be a sewerage system comparable with Westchester. It will be what is termed a double sewer system—one system of sanitary sewers and another of storm sewers for surface water. Thus all danger of flooded basements or a back-up of waste is forever removed. The estimated cost of this improvement alone is \$550,000.

Drinking Water-pure and in abundant quantities-will come direct through the Westchester mains. The initial system at a cost of

\$350,000 has been authorized and will be installed without delay. Every provision has been made for electricity, gas and telephone service, and all are now available. Westchester is right in the area of the greatest electric service pool in the world. Light and power rates will be attractively low. Churches and schools will be built in accordance with a scientifically laid out soning plan. Ample police and fire protection has been provided.

Whether you are interested in home site, an apartment site or a business site, Westchester gives you an opportunity unmatched in the Chicago suburban area. Especially attractive are the advantages to one with the ambition to own his or her own store or shop.

The minute high-speed transportation starts values go up. That is the history of greater Chicago—remember Wilson Ava., Howard Street, Niles Center and Ravenswood. And again we say, this is the first time the West Side has had a suburban development backed by

We have given the most substant with possibly some sort of experiment at a new guaranty of our nonaggressive, pacific intention parliament. In the melée of personal ambitions, and we think the fears of foreign government.

The influence of Moscow on the advancing power of the Cantonese has certainly not been on behalf of conciliation and restoration of friendly reintions, and the attack upon the British ships on the upper Yangtze may very well cause grave concern not only in Downing street but at Washington and Paris. It cannot be ignored, but unless the Cantonese establish themselves in Peking and set up a national government, diplomatic protest for returning property worth many millions of dollars to alien owners from whem it had been punitive measures, demanded, it is said, by the British at Shanghai, are not easy to organise and would have a very undesirable effect upon

general's party.

That would increase the prestige and direct in nce of Moscow not only in the Far East but throughout Asia, and one of THE TRIBUNE'S cordents at London reports that Downing street already views with disquietude the success of the soviet government in establishing relations with the countries bordering Russia, from Latvia on the Baltic to Canton on the China sea. With the shrewd bolshevik propaganda busy throughout Asia and a government supported by Moscow sesion of Peking, Canton and a good part of the Tangtze valley, not only the interests of Great Britain would be gravely threatened, but those of all foreign powers now possessing any

In the meantime American diplomacy will need exceptional clearheadedness, foresight, and firmness. It will need to avoid being tricked into plucking other nation's chestnuts out of the fire, and at the same time to realize our concern in the defeat of the general bolshevik foreign policy of trouble making and also our interest in the establishment of a Chinese state or states with which tolerable relations can be maintained by us and by the occidental world.

Thus the larger aspects of the situation indicate the wisdom of common action among the western powers, and if possible, Japan, and in this we could afford to participate if our general ideas were accepted and our associates would forego shortsighted tactics on behalf of special ends. .It is likely that we can find common ground with the British and that is more than half the bat-tle, but too much time should not be lost in com-

Thus, both because of the personalities and issues involved, the trial of Mr. Daugherty and his ce-defendant,

the trial of Mr. Daugherty and his ce-defendant, Col. Miller, former allen property custodian, is of the highest significance.

The trial began Tuesday morning. By the time court adjourned that day the jury had been selected. A jury was chosen in one day to try as important a criminal case as has been heard in many years in the United States. By way of con-trast, it often takes a week to splect a jury in Chicago to try a gunman. When one hoodlum is charged with shooting another our courts have been known to waste a month in finding twelve

No one can suppose that the ends of justice are served by the method of examining prospective jurers in Illinois. The jury which finally hears the evidence is no more impartial than one which might have been accepted on the first day. We have never heard it said that juries in our federal ourts are less able than our county juries. In fact, the reverse is true.

No one who has observed them both can doubt that our federal criminal procedure is superior in this as in many other respects to that of our state courts. Criminal procedure in Illinois is need-lessly slow. Our judges cannot cope with delay, which is bound to work in the interest of the

esponsibility for the prevalence of crime.

Efforts to reform judicial procedure have freuently met with opposition, even from lawyers,
in the ground that, though faulty, our court syssem is probably better than anything which is
kely to be out from whole cloth. There is no likely to be cut from whole cloth. There is no force in this argument. The methods of the United States courts may not be perfect, but we encould certainly make no mistake in Illinois if we were to take them over bodily. This community has had experience with the two methods, one to rerving the ends of justice and the other only too frequently making a mockery of justice. What has norsed well on South Dearborn ought not be con-idered a revolutionary experiment on North Dear-orn street. We are a man with two rifles. One shoots true; the other is unreliable. It is difficult to believe, as reported to the President, that there is an understanding in foreign capitals that the United States is planning a vast military aviation development. The war offices of the principal nations are not so ignorant of our activities or of our proposals that they could go so far astray.

But the President's official denial can do no harm. The suspiciousness and cynicism of European diplomacy may discount it, but it is only too well supported by the available facts, and we cannot prevent misinterpretation or misunderstanding if it is intentional.

EDITORIAL.—The situation of affairs about Washington does not seem to have materially altered since yesterday. Our correspondent says in his special dispatch that the rebels are intensely active; that our troops had slept for two preceding nights on their arms, and that an attack is constantly expected. We have abiding faith that Gen. McClellan is prepared for any emergency. Chicago, Sept. 5.—I don't know where some girls get their ideas of smartness, but I for one don't agree with them.

While waiting to be served in a tear-room yesterday a young lady entered and sat at my table. When the waitress asked for her order she asked (loud enough for these around to hear) for an each tray. For the next ten or fitten minutes she smeked, blowing the smoke across the table. Every few minutes she glanced around to see just how much attention she was attracting and what effect it had on the public. Most of the girls gave her a surprised look, and spoke to their friends about her. Needless to say, I didn't enjoy my dinner, although I was very hungry.

Now don't think me old fashioned because I do not smoke, because I think it is one's own business, but at the same time there is a place for everything, and I don't believe this young lady's actions

Why Acidophilus Milk Increases Vitality and Prolongs Life

Too small to be seen by the naked eye, the tiny Acidophilus plants, grown in milk, possess the surprising power to displace the germs that cause food decay in the digestive tract.

These health-preserv; ing, youth - prolonging, microscopic plants thus successfully combat the cause of one of the most persistent sources of internal poisoning. The countless germs that cause food decay cannot exist where Acidophilus holds the upper hand. Thus the poisonous products of putrefaction are no longer manufactured to be absorbed into the blood for transportation to every living cell of the body.

Ideal surroundings for the growth of these tiny Acidophilus plants are found in certified milk, which, when cultivated with these plants, forms a delightful health

In a single bottle of Acidophilus milk are millions of growing Acidophilus plants, fresh as any vegetable just taken from a

The value of the Acidophilus plant as a fearless enemy of internal poisoning has not long been known to man. Only in recent years has modern science succeeded in isolating it, thus making possible its individual growth and cultivation free from all retarding factors.

Every quart of this youth-preserving health drink contains millions of microscopic plants, each a relentless destroyer of food-decay.

Its continued use will thoroughly implant Bacillus Acidophilus in the intestinal flora and resist food poisons which tear down muscle, nerve and tissue, thereby retaining or re-establishing the vigor of youth.

Mr. Traylor anticipated just such a comment by reason of the aldermanic suggestions as to what would be politically expedient to put in the ordinance. He told the aldermen face to face:

"The bankers will not sell any bonds, nor be interested in transporation, unless the plan is financially sound. It cannot be financially sound unless it gives good service. Why do the gas, phone, and electric companies give good service? Because they are making money. To get good transportation service you must permit the companies to make money.

Lake Michigan will be purified by cleaning it of sewage from northern Indiana, if the forecast of Maj. Henry W. Lee, president of the Lake Michi-

he congress will hold its annual conention on Sept. 24 in Racine, Wis.,

and will take definite action to urge the completion of the sewage treat-ment plants in Hammond, Whiting, East Chicago, and Gary.

At present the major said several thousand dollars have been expended to prepare plans for sewage disposal in those towns, and it will be the purpose of the congress to speed such construc-tion.

The Indiana report, which will be submitted at the session, is in the hands of Maj. Lee. He said its findings show that the lake has been used as a sewage receptacle to a shocking

as a sewage receptacle to a shocking degree.

Practically every lakeside municipality will be represented at the congress. The Wisconsin delegates will receive suggestions for furthering the sewage disposal treatment in their state. Milwaukee is the only city which now is building an artificial plant, but it is hoped that impetus will be given Kenosha, Sheboygan, and Manitowoc to proceed with purification.

Maj. Lee announced that much of the program will be made up of speeches by health authorities and sanitary experts of national repute.

Among such speakers are to be Dr. Herman N. Bundesen, Chicago health commissioner; Edward J. Kelly, chief engineer for the sanitary district; C. I. Corp of the University of Wisconsin; T. C. What of the Future? Yesterday you could have made a fortune in real estate & & &

But what of the future? Does any man, witnessing the stupendous developments taking place about him—does any man knowing that Chicago population increases at the rate of 100,000 yearly—does any man knowing anything of the history of Chicago Real Estate, fail to see that opportunities for future profits are greater now than ever before?

What will we do with the next hundred thousand and the next? Public utility companies, subdividers, financiers and leading business are investing millions in confident anticipation of the increase estate values that must follow this continual growth.

And—NOW—WM. H. BRITIGAN has bought for cash on an acresse price basis the only remaining large tract available in the very heart of the North Side apartment district, well within the city, with frontage on one of the North Side's most prominent business streets—a tract that owing to peculiar circumstances has long been withheld from the market—a tract completely surrounded by high grade development now. And remember, Mr. Britigan has developed over one hundred Chicago and divisions that have brought profits to thousands of investors, and that his subdivisions invariably become solidly built-up communities.

He is now about to offer City lots in this newly purchased tract with all improvements at subdivision prices—How he can do this—Why this property was held intact while the city grew up about it—How you can buy and make money—All these facts are obtainable in advance—and remember this—the way to make money in real estate is to know the facts soon enough. ON SALE TODAY All News-stands—10 Cents THE VERY PRESENCE of a special representative of the President of the United States emphasizes the serious dilemma confronting our Government: Shall we hold the Islands despite a promise to grant them independence, or shall we cast them adrift, regardless of their own welfare and our national prestige in the Far East?

America, say a number of papers, has now come to a point where it must make a decision with regard to the Philippines. It is by no means a simple decision to make, observes the Chicago Tribune, since the Islands "have about as many complications as they have square miles."

The tyrant, observes the Los Angeles Times, "is a new role for Uncle Sam to play; but in the childlike mind of the excited Filipino, who clamors for independence as a small boy impatiently demands a huge piece of pie, regardless of whether or not it is likely to agree with him, our Government is as despotic as any of ancient Rome."

Some of the editors reading the dispatches from Manila have been led to write vigorous editorials in favor of complete independence. The Jacksonville Florida Times-Union puts it this way: "this country does not need the Philippines; it has no legal or moral right to permanently hold these people who are protesting against further coddling or restraint."

There are a lot of people, says the Duluth News-Tribune, "and this newspaper agrees with them, who believe that the United States should keep its promise and turn the Philippines loose to govern themselves just as soon as they qualify for self-government, rubber or no rubber."

The Philippine situation as it exists to-day is graphically depicted in the leading news-article in The Literary Digest for ptember 11th. It presents the views of leading Filipinos and Americans; and gives the reaction of the American press upon Colonel Carmi Thompson's tour of investigation.

SPAIN ENDS: KING RESUMES OUTING

Leaders of Army Revolt May Get Clemency.

BY LARRY RUE.

Meanwhile Premier de Rivera went shead with plans for the plebiscite on sept. 11 to 13, in which the nation will express its sentiments with regard to the dictatorship, which then will be three years old. The fact that the government is not blind to the political capital it can make of the bloodless suppression of the plot is made clear when it points out: "The gov clear when it points out: "The gov-ernment always has cordially received complaints from the artillery officers and has offered generous solutions of the problems which have not been prejudicial to any one."

The artillery officers obeyed a sum-mons of the government to quit the barracks and return to their homes,

where they are not confined, after a talk with the king. This is arousing the belief that clemency or other con-cessions have been promised, even the possible nullification of the offensive

IQUID Granite wears! We have said it before and repeat it once more. Of all floor varnish manufactured, it is the most durable.

There are scores of fine old homes in America that have not required the services of a painter since the woodwork in them was originally finished with Liquid Granite 20 or 30 years ago.

William Goodes of Flint, Michigan, built his home in 1898. The white oak woodwork was finished with Liquid Granite. The varnish is as beautiful today as when the painters completed their work 28 years ago. Not a single hair-line crack is to be found. Even the stair steps have never needed to be refinished!

John B. Oblinger built the finest residence in Lancaster, Pennsylvania, in 1895. The floors were finished with Liquid Granite. Some of them have been refinished in recent years—but the floor in the reception hall has never been re-varnished and is in beautiful condition today!

What Money Cannot Buy

The 49th State is the natural St. Louis trading a. One of America's greatest markets. A 20-lion-Dollar Area dotted with thriving towns and

In Any Other St.Louis Newspaper

Twenty Billion Dollars in purchases flow through the cash registers of The 49th State annually—to supply the needs of the 4,600,000 people concentrated in this one market.

Eleven billion dollars of this is spent in The 49th State outside of St. Louis.

To cover this market your advertising must not only reach the big purchasing power of metropolitan St. Louis, but must also reach into the surrounding towns within a radius of 150 miles.

Only one St. Louis newspaper will give you this coverage: The St. Louis Globe-Democrat.

Six days a week in 198 thriving towns of more than 1,000 population, 20%

or more of the families read The Globe-Democrat -St. Louis' only morning newspaper—St. Louis' Largest Daily.

And in 209 towns of more than 1,000 population, 20% or more of the families read the Sunday Globe-Democrat.

Only 2 of the 198 towns have morning newspapers of their own, and only 2 of the 209 towns have Sunday newspapers of their own.

Seven days a week The Globe-Democrat is the buying guide of the people of The 49th State.

It is read daily by three times as many families in The 49th State outside of St. Louis as the first evening paper. Its supremacy is, not even challenged.

Advertisers are cashing in on its tremendous influence by concen-

trating their advertising in this one great metropolitan newspaper. 690 national advertisers used The Globe-Democrat

exclusively in 1925. Here is selling power. Selling power increased by efficient coverage that no amount of money can buy in any other St. Louis newspaper.

There are 119 towns in The 49th State of more than 1,000 population in which the daily coverage of The Globe-Democrat is 30% or better. 71 in which it is 40% or better. 30% or better. 102 in which it is 40% or better.

a two weeks game of battle maneuvers over and around Chicago this morning.

The planes, flown here from their headquarters at Rantoul, Ill., dropped out of a murky sky early yesterday onto the municipal field at 63rd and Cloero, where the squadron is encamping for its annual training.

Plowing along the muddy roads came a train of motor trucks carrying equipment and eighty men, the enlisted personnel of the squadron. The men last night were busy throwing up tents and fitting up radio, photographic and other aeronautic paraphernalia.

Capt. Ernest Clark, in command, announced that three or four additional planes will join the squadron today or tomorrow. Each day from 9:30 to 11 a.m., he said, the machines will ascend and make observation, take photographs, test parachutes and undertake maneuvers of every description.

During the two weeks the fifth photographic section, which is one of the units in training, plans to photograph a large part of Chicago's metropolitan area for war department records.

Although no definite plans have been made for fiving circuses or

Although no definite plans have been made for flying circuses or stunts, Capt. Clark said that the pub-lic will be welcome to watch the ma-neuvers at any time.

Something to tie to

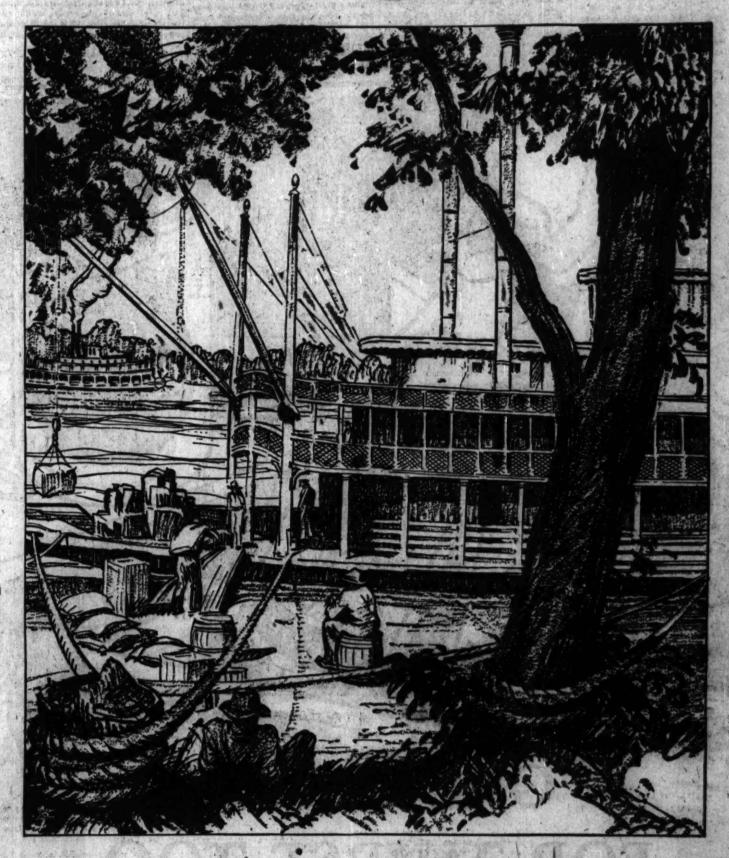

TN the language of the old I riverman, "something to tie to" meant a rock or tree that was solidly enough planted to hold the boat against all the power of wind and current. "Something to tie to" meant stability to trust.

This simple phrase has become current in our language. It has not lost its meaning. And nowhere in all the rush of American life is "something to tie to" more important than in the choice of a newspaper.

DUBLISHING has undergone many changes. Favorite journals have disappeared. Ownership has changed again and again. New money has brought new voices to be heard. "Who speaks?" is a fair question when any newspaper utters an opinion.

In this shifting scene, steadfastness, which has been a principle of Scripps-Howard journalism since its beginning in 1879, is valued more than ever by the readers

Scripps - Howard fearlessness, honesty of opinion and independence of control furnish something for the public to tie to.

TIERE is the most potent Treason why Scripps-Howard newspapers enjoy the confidence of more than a million and a half families in

twenty-four cities. They are dependable; they can be counted upon for accurate news and for sane and constructive liberalism in policy.

The highest reward of journalism is the respect and confidence of newspaper readers. This, the Scripps-Howard organization values above all else.

Under such schedule conditions, teams with present margins have marked advantage, St. Louis naturally more than Cincinnati. Pittsburgh is nearly out of it except for the always possible unexpected. The Pirates have both a lead to make up and more games to play, a handicap to a slab staff already under suspicion.

St. Louis is fortunate in having several off days in which to rest on its eastern trip. This is of more value to the hurlers than to the balance

DRISCOLL MAY JUMP TO GRANGE **PRO GRID LEAGUE**

Considers Leaving Bears for New Club.

Paddy Driscoll, Chicago's premier pro grid performer for the last five years, is gebating today whether to sign a contract with Joe Sternaman's newly organized pro eleven in Grange's American league, or to remain with the old organization, the National league and play with the Chicago Bears, the Halas-Ed Sternaman north side com-

It has been known definitely for sev-eral weeks that Driscoll would not play this season with Chris O'Brien's Cardihis season with Chris O Brien's Cardinals, the team which he has captained for six seasons. Feeling that he could not meet Paddy's salary demands. O'Brien sold Driscoll's contract to the Chicago Bears, and that club has been endeavoring to get Paddy's signature attached to the dotted line for the

rests.

If Driscoll should jump to the Grange league, his name would be blacklisted with the older grid organization, and with the bluer grad organization would be without employment should the newer venture hit financial snags and capsize. A contract with the Bears would doubtless be for a longer period, and he could be sold to any one of the twenty-six member teams.

Driscoll Will Sign Soon.

Driscoll will sign soon.

Driscoll probably will sign one or the other of the two proffered contracts within a few days, since it is now less than two weeks until the opening of the league season. It is rumored that Joe Sternaman has practically completed the personnel of his pro team, and has been withholding a list of his players until he was able to attach Driscoll to his squad.

Red Grange and the eastern grid stars who have signed as members of his New York team, tarried briefly in Chicago yesterday on the way to Aurora, where intensive practice starts today at Exposition park for the bpaning game of the season at Cleveland, Sept. 26. Other players of the team from the midwestern and coast states have preceded the Red Head to the training camp and are awaiting his arrival.

The East Bay Municipal Utility District, organized May 22, 1923, for the purpose of acquiring the system of the East Bay Water Company and for bringing in an additional water supply from the Sierra Nevada mountains, comprises an area of 92.6 square miles which includes Oakland, Berkeley, Alameda, Piedmont, Richmond, San Leandro, Albany, Emeryville and El Cerrito. The East Bay District occupies an incomparable position as a manufacturing and distributing center of the Pacific slope, its location on the east side of San Francisco Bay four miles from San Francisco placing it at the gateway to 25,000,000 acres of California's most fertile soil embraced in the San Joaquin and Sacramento valleys. Its natural advantages have attracted many large industrial concerns and at the present time there are approximately one thousand factories in the district. The District's financial institutions comprise twenty-eight banks with total resources exceeding \$250,000,000.

These bonds are direct general obligations of the District, payable from unlimited taxes on all the taxable property therein. Their validity has been established by the Supreme Court of the State of California.

\$4,000,000 Interstate Iron & Steel Company

51/2% First Mortgage Sinking Fund Gold Bonds

Due May 1, 1946

Interest payable without deduction for normal Federal Income Tax not in excess of 2%

The following information is summarized by Mr. Paul Llewellyn, President of the Company, from his letter describing this issue:

Purpose of Issue: These bonds are being issued to refund the Company's outstanding 8% First Mortgage Sinking Fund Gold Bonds, to effect a material saving in total annual bond interest charges of the Company, and to add to working capital.

History and Business: The Interstate Iron & Steel Company, incorporated under the laws of Illinois in 1905. incorporated under the laws of Illinois in 1905, owns and operates three plants in the Chicago district, with combined capacity of about 400,000 tons of finished products per annum. It manufactures carbon steel and alloy steel ingots, blooms and billets, iron and steel bars and shapes, wire rods and nails, and wire products generally, and is one of the two largest producers of Open Hearth Alloy Steels in the country.

The assets of the Company at the time the business was established in 1905, consisted principally of a plant at East Chicago, Indians, worth about \$250,000. The Company's balance sheet as of June 30, 1926, giving effect to this financing, indicates a present net worth of \$9,796,020, of which over four million dollars has been accumulated from net earnings since January 1, 1917.

Security: These 5½% First Mortgage Sinking Fund Gold Bonds, Series A, will be a direct obligation of the Company and will be secured, in opinion of counsel, by a direct first mortgage on all the fixed property of the Company. The mortgaged property and the machinery and equipment have been independently appraised as of June 30, 1926, at a net sound value of \$11,866,171, equivalent to \$2,966 for each \$1,000 first mortgage bond presently to be outstanding.

The balance sheet of the Company audited as of June 30, 1926, giving effect to this financing, shows net assets, after deduction of all liabilities (other than the bonds presently to be issued) and reserves, applicable to the

payment of these First Mortgage Bonds of \$13,796,020, equal to \$3,449 for each \$1,000 bond presently to be outstanding. As of the statement date, net current assets alone total \$3,411,217 and current assets are over 3.4 times total current liabilities. The Company has no notes payable.

Earnings: Net earnings of the Interstate Iron & Steel Company, after all charges including depreciation and interest on indebtedness other than bonded debt, applicable to the payment of bond interest and Federal income taxes, as independently certified, for the four and one-half years ended June 30, 1926, averaged \$1,001,347 per annum, equivalent to over 4.5 times the maximum annual interest requirement of \$220,000 on these 5½ % First Mortgage Sinking Fund Gold Bonds, Series A, to be outstanding. Average annual earnings for the nine and one-half years ended June 30, 1926, were equivalent to 4.4 times this interest requirement. For the year ended December 31, 1925, earnings were over 7 times the maximum annual interest requirement on this issue, and for the first six months of this year were at approximately the same rate.

Mortgage Provisions: The Trust Indenture will provide among other things in substance that the Company shall maintain at all times net quick assets equal to not less than 40% of the total First Mortgage Bonds outstanding, and total net assets, after deducting all liabilities other than the bonds, of at least 200% of the principal of the First Mortgage Bonds outstanding.

Additional First Mortgage Bonds up to the full authorized amount of \$10,000,000 may be issued only under conservative restrictions.

Sinking Fund: The Mortgage Indenture securing these bonds will provide for the retirement through a Sinking Fund of \$2,358,000 of this issue before maturity.

These bonds are offered when, as and if issued and received by us, and subject to approval of counsel. All legal details in connection with this issue will be approved by Arthur B. Schaffner, Esq., as counsel for the bankers, and Neuman, Poppenhusen, Starn & Johnston as counsel for the Company. It is expected that permanent bonds of the Company will be delivered on or about October 1, 1926.

First Mortgage 6% Fee and Leasehold Serial Gold Bonds

To be dated as of September 1, 1926

Interest payable March 1 and September 1 at The Foreman Trust and Savings Bank, Chicago, or at the National Bank of Commerce in New York, without deduction for Federal income tax up to 2%. Company agrees to remburse the holders, if requested within 60 days after payment, for the Pennsylvania and Connecticut four-mills taxes and for the Massachusetts income tax on the interest not exceeding 6% of such interest per annum. Coupon bonds in interchangeable denominations of \$500 and \$1,000, with privilege of registration as to principal. Redeemable in whole or in part upon any interest date on 60 days notice at 102 and accrued interest, bonds of latest maturities to be called first. The Foreman Trust & Savings Bank, Chicago, Trustee; Robert B. Whiting, Chicago, Co-Trustee.

Mr. L. B. Patterson, President of the Company, has summarised his accompanying letter as follows: BUSINESS AND PROPERTY: Seaboard Terminal and Refrigeration Company, a New Jersey corporation, has entered into an agreement with the Eric Railroad Com-

Refrigeration Company, a New Jersey corporation, has entered into an agreement with the Eric Railroad Company whereby the Company will erect a ten-story modern reinforced concrete fireproof freight terminal and cold storage warehouse (200 by 400 feet) on property covering an entire city block, located at Monmouth, Coles, and Twelfth Streets, Jersey City, N. J. The lower four floors of the building will be leased to the Eric Railroad Company, to be used as a freight terminal station, for a period of thirty years, with the right of renewal for ten additional years, at an annual rental equal to 5.5% of the cost of the first eight stories of the building, or approximately \$185,000 per annum. The upper six floors of the building will constitute a modern cold storage plant, with a total capacity of 4,500,000 cubic feet.

On a plot of land across the street the Company will erect a modern reinforced concrete fireproof refrigerating and ice plant, with a capacity of 500 tons daily, or approximately 150,000 tons a year. A thirty-year agreement with the Eric Railroad Company for all the ice used by the railroad company in the Greater New York and Jersey Terminal districts at a profitable price will call for approximately 35,000 tons annually, the balance of the capacity of the plant to be available for local distribution.

A fruit auction house to be erected by the Company within four blocks of the Jersey City entrance of the new vehicular tunnel, and across the street from the freight terminal and warehouse, to accommodate the fruit market of New York City—the largest in the world—which for the past fifty years has been located on property of the Eric Railroad Company at the foot of Duane Street, New York City—the largest in the world—which for the past fifty years has been located on property of the Eric Railroad Company at the foot of Duane Street, New York City—the largest in the world—which for the past fifty years has been located on property of the Eric Railroad Company at the foot of Duane Street, New York City t

Under an agreement with the Erie Railroad Company, the Company will handle all the freight coming into the

freight terminal station, which over a has averaged about 500,000 tons yearly. the Company a substantial profit. The will afford accommodation for unloading

SECURITY: These bonds will be a first and param

lien on:

(1) The freight terminal and cod storage warehouse, the refrigerating and ice plant and the fruit auction house to be erected by the Campany in Jersey City, N. J., at an approximate cost of \$4,350,000.

(2) The thirty-year lease from the Company to the Eric Railroad Company of the lower four floors of the freight terminal and warehouse at an annual rental of approximately \$185,000, or more than the maximum annual interest charge of the bonds.

(3) The Company's rights under the thirty-year leases from the Eric Railroad Company and certain of its subsidiaries of the land upon which the freight terminal and warehouse and refrigerating and ice plant are to be erected and the fee simple title to 30,000 square feet of land upon which the fruit anction house is to be erected. The Company will have the right to renew these thirty-year leases for ten additional years.

(4) All the real estate or interests therein have after acquired by the Company and all buildings erected thereon.

The Company will furnish moneys to advance the contract th

erected thereon.

The Company will furnish moneys to advance the company tion to a point where, in the opinion of the Trestee, the proceeds of the bond issue will be sufficient to complete the project. None of the proceeds of the ond issue will be paid out until such a point is reached.

EARNINGS: The annual rental to be eccived from the Eric Railroad Company for the lease of the ower four floors of the ten-story freight terminal and cold storage warehouse is alone more than sufficient to cover the maintain ones is alone more than sufficient to cover the maintain ones is alone charge of the bonds.

The lowest estimate of the earning capacity of the Company indicates net income available for bond interest, Federal taxes, etc., after a liberal allowance for depreciation, of \$741,500, or over four times the maximum annual interest requirements of the bonds.

MANAGEMENT: The Management of the Company will be in the hands of executive who have a remarkable record of accomplishments in the operation of terminal warehouse, cold storage and ice manufacturing properties.

EW MEN think only of themselves when they make an investment. Seldom is the investor the one who will eventually profit from his investment. For the act of investing is an act of creating an estate, and estates are a matter of the future, not the present.

When you make an investment, think of those who will some day be dependent on your estate. Their care, their protection are of far greater importance than mere matters of price or yield or maturity.

You will not go far from the rules of strict safety if you consider your investments in the light of their future income. And if you do this you will probably buy proved Municipal, Public Utility or Industrial bonds.

HIGH WATER MARK!

The average net paid circulation of The Chicago Daily Tribune last week exceeded

THREE-QUARTERS

OF, A

MILLION

IN December, 1921, seventy-four years after its founding, The Daily Tribune's circulation passed the half million mark. Since then daily circulation figures at the end of each year have shown these added gains:

December 31, 1921 -- 518,718

" 1922 -- 520,162

" 1923 -- 579,273

" 1924 -- 601,512

" 1925 -- 690,529

August " 1926 -- 750,000

In five years The Tribune has added a quarter of a million to the host of its readers. They have been unusual years. Its readers' opinions on politics, on world affairs, on prohibition, on armament have not always coincided with the Tribune's.

But The Tribune's editorial views have been its own—independent, fair, and superlatively honest.

And this amazing growth proves that Chicago and the Central States want the kind of newspaper The Tribune is.

The Misty Pathway By FLORENCE RIDDELL

Richards Peterson, a London office girl, wins five thousand pounds in a newspaper stest and decides to spend it in travel. The east coast of Africa holds the greatest calls of adventure to her, and she books passage for Port Mombass. When the boot age at Gibraltar Richards goes off alone to inspect the old town and is accosted by a give, who frightens her. Angus Brodle, one of her fellow passengers, rescues her from

ative, who frightens her. Angus Brodie, one of her fellow passengers, rescues her from the man.

Arrived at Mombasa, the first person Richenda sees is Breit Fairways, a noted explorer, show face has haunted her dreams. She is introduced to him by Lucille Davenant, a cities, who has deliberately sought her acomusintance. Mrs. Davenant and Fairways invite blesseds to join them on a hunting expedition. They start the journey into the interior. He is moody and acts strangely, but Richenda trusts in completely, even though the intimacy between him and Lucille is disturbing. Sudsty he islis Richenda: "I want to be rid of that woman. You've got to marry me stars," and Richenda feeling she is a creature of destiny, consents. Angus Brodis pays any six and cautions Richenda to go slowly. He asks her to promise to come to its if she ever needs his help.

The marriars is performed, and a few hours later Richenda overhears Brett and Lucille arceling violently. Lucille is refusing a bribe and accusing him of bigamy. Brett retorts not her, threatens to tell Richenda they have been lowers. Brett asks what she will take of disappear. Lucille admits she is in difficulties about a forged check and agrees to go best will pay up for her.

Summed and disillusioned, Richenda flees from camp in a motor car. In a dans she massives her promise to Angus and directs the native driver to take her to Lambogru. Invest, after discovering her absence from camp, follows her to Brodie's ranch and massed that she return with him. She refuses, so he bundles her up in some blankets at lates her in the car back to his camp. Their camp is visited by two Englishmen, there are the part of the massive her in the car back to his camp. Richenda was in his arms before she had caught the full meaning of the sets that rushed hotly from his lips and ceased suddenly with the coming of one farce kisses which stung her into speech.

"No, no, no!" With a wild cry she had torn herself free, face scarlet in guick fury. "O, how dared you?"

It was Anders' turn to be amazed. How dared he? Hadn't she said she anied to get away? Hadn't she agreed to steal out and meet him alone at kinight? Hadn't she, all along the line, showed a willingness to accept his mpany on all possible occasions, even gone off into the forest with him when sirvays say sick with fever? There was only one construction likely to be sit upon her actions by a twentieth century young man imbued with that need which is born of the post-war knowledge that, because his sex is in a minority, each member of it may gain additional value in the eyes of the seent day women with their unfortunate majority of the "superfluous two illien!"

Good Morning!
Can't imagine why they wished such a flashy, ill-fitting title on such an admirable production. "The Door Mat" was the name of the story from which the film was adapted and it meant something. Those who have been wondering for lo these many months where Mr. George Beban has been hiding will be delighted to learn that he comes to the Chicago theater next week to appear in person and on the screen in a new production, "The Loves of Ricardo." New Year of 5687

Is Celebrated by

New Year of the World

New-Netes.

BY THE REV. W. B. NORTON.

A happy new year salutation passed from rabbis to people and from neighbor to neighbor as New Year's eve was celebrated last evening in the temples and synagogues of Chicago and of the world. Today will be Rosh Hashonah, first day of the year \$687 in the Jewish calendar. In orthodox synagogues services will begin at 7 o'clock and in the reformed congregations at 16.

The largest congregation in Chicago was that held by Temple Sholon at the Medinah temple, Cass and Ohio streets, where all the 4,500 seats were taken. The music was led by Joseph Schwickerath and a choir of 50, whose voices carried the solemn and exultant notes of the service to the farthest gallery and to the other thousands who listened in on W.G.N. The Tribuns's radio station on the Drake hotel. The address by Rabbl Abram Hirschberg was also brondcast. It was an urgents plea for all to use their best endeavors to attain success in character and in the things of the spirit as the typical American is doing in winning money and the luxuries of life.

However, it is some-what discouraging to learn that men pick one type of girl for a playmate, the other for a wife. Can't the nice girl be a playmate as well as an idea? It is not, in view of this, so delight-ful to know that in the dim, distant future, some jaded male will trot up and offer her the job of keeping house for him, and bearing his children and dusting off the family coat of arms, and seeing that the family honor is kept shiny. It is not, I contend, quite fair to young men to play with the dumbbell and let the admittedly supe-rior nice girl cool her heels at home.

Today's black satin model possesses
not only those feminine sleeves to redeem it from tailored effect, but it is
otherwise glorified by deep bands of

Successful business girls, like attractive Miss Lillian Reilly, 175 Lott St., Brooklyn, New York, alway welcome beauty aids which help them live up to their repunsion as "the best groomed women in the world." Miss Reilly, who is a lover of outdoor sports, too, says "Black and White Cleansing Cream is indispensable to me after my hours of work or play. It's wondorful the way it makes soot, dust and powder fairly roll out, and leave my skin fresh, 'spic and span' clean, and lovely to look at and touch."

The soft, light Black and White Cleansing Cream melts at a touch and searches every pore for impurities which would came blackheads and other blemishes. The big 50c tin of this exquisitely textured cream holds more than tway as much as the smaller 25c one. You can get them from dealers everywhere.

If your dealer doesn't have the Black and White Beauty Creations you want, send his anne to Flough, Memphis, Tem, and you will receive less a copy of the Birthday and Dream Book, containing many interesting facts about beauty, dreams and fortune telling.

WGES is a residential station, and a can hardly commend its programs. Similarly, WMBB's announcing. This also being a residentially located station. Another thing, I would place inferior stations on low wave lengths and on weak power, and place high grade stations on a super power that would override every conceivable form of interference, regardless of the source or nature.

How many people actually have halitosis (unpleasant breath)?

Read what dentists have to say about this:

EVERY reader of Listerine advertising knows about L halitosis (unpleasant breath), that insidious thing that not even your best friends discuss with you.

Yet there are still a few "doubting Thomas" folks who think halitosis is only a state of mind.

Out of simple curiosity we put this question up to a

carefully selected list of dentists-1000 of them-and in a letter asked them the following: Do you ever use Listerine, in self-defense,

in the mouth of a patient troubled with halitosis, unpleasant breath?

Please answer if you use it this way (1) Frequently, (2) Occasionally, or (3) Never.

Four hundred and forty replied as follows:

83% said "Frequently" 15% said "Occasionally" Only 2% said "Never."

Now, what human being meets halitosis at closer range, face to face, than the dentist? And who would be a better judge of this condition-and how to combat it-than the dentist?-Lambert Pharmacal Company, St. Louis, U. S. A.
